Question

I saw myself this morning, and not in the mirror. (self.Paranormal)

submitted 2 months ago by ElementsT 🙌 🧐

So today when I woke up, I went out for my morning cigarette.

While I'm sitting in the garden, smoking my cigarette, I look ahead and see myself, walking, in the living room, while I am in the garden sitting.

The "other me" or what it can be called didn't see me and just kept walking away until it was out of site. I didn't see it afterwards until now.

In order to try and figure out what's going on I did myself a tarot reading trying to figure out what was that.

I asked it what did it mean and why did I see it.

The cards said that I feel imprisoned and have negative thought (which I do about a subject), Feel guilty and don't know if to stay or go (correct again), And the last card invites me to step out of the thoughts opinions and ideas phase and just go choose a side and do it. The cards were 8 of swords, 5 of cups, and 7 of cups in that order, if anyone's interested.

The weird thing for me about this is, that I have this feeling that it's not that for a 100%, like there is more.

Does it kinda make sense to anybody? I don't know what to think, feel, or do about it. Any advice, theories, or something from anyone would help. Thank you in advance.

Me and my older sister saw her once while we were standing talking at the end of our hallway. The other her walked out of my parents room, stopped turned to look at us, and walked away. It was crazy. I have no answers for you unfortunately, but you are not alone in your experience. I do know we had a few other entities that inhabited our home, and one that would mimic voices and things such as that. I'm sorry I couldn't be of more assistance, but I hope you find the answers you are looking for. Also, you did the correct thing by doing divination work to try to gain an understanding. Tarot is pretty useful for these things.

Oh WOW, that sounds like a DOPPELGANGER to me...and as I understand it, doppelgangers are NOT good news. BAD OMENS x 10. Basically, a blatant warning something pretty bad may happen to your person in the immediate future. Unfortunately, I don't have a lot of personal experience dealing with doppelgangers, so I'm not EXACTLY sure what you can do to protect yourself. I do, however, have someone I can ask for you next time I talk to her, hopefully very soon.

In the meantime, if I were you, I would use this forum as an opportunity to SPECIFICALLY ask, with this as your headline: "How do I protect myself after seeing

It's a doppelgänger. I've experienced something similar and also read a few other peoples experiences

Isnt it supposed to be a bad omen if you see your doppelganger?

It isn't always you though. This is **not my personal account** so take it with a grain of salt. When my best friend was five, he **allegedly** saw himself in the mirror covered in blood. 3 days later his mom died.

That was the version of you that doesnt smoke so it didnt go outside that morning. Might be a message to get you to stop smoking. That was honestly the first thing I thought of when I read your post.
